## New Angles Set For Fall Festival Fun And Gaiety

GRADY THOMAS,  
ELLIE BRUNSON  
ARE PROMOTEDRemember The Story About Hot Dogs?  
(An Editorial)

The expanding operations of Dorsey Trailers was marked last week by the promotion of Ellie Brunson to Production Manager and Grady Thomas to Chief Inspector.

Brunson started at Dorsey's as a plant laborer in 1945 and for the past several years has worked as assistant to R. A. Sewell, Dorsey vice president in charge of manufacturing. In Mr. Brunson's new capacity he will report to and work directly under Mr. Sewell.

Thomas went to work at Dorsey's in 1950 as a carpenter, and after a few months was transferred to the inspection department where he has remained for the past eight years. In his new position as Chief Inspector he is responsible for the final check-out of all Dorsey trailers leaving the plant for delivery to purchasers. This function was formerly the responsibility of Henry Dorsey who was appointed assistant to the president of Dorsey Trailers and recently as director of programming.

Weather Man Smith  
Beats Bureau In  
Seeing Geese

J. Drayden Smith, Elba's unofficial weather man, beat the official U. S. weather bureau in sighting geese flying southward this year.

Early Monday morning Smith was telling friends that he had heard a flight of geese before dawn but they did not appear until 8 a.m. he saw another flight.

The same day an Associated Press dispatch quoted the U. S. Weather Bureau at Birmingham as having seen a flight of geese at 5 p.m.

"That means cold weather is right behind," said Weatherman Smith.

There was a story widely circulated a few months ago about a man who was doing a prosperous business selling hot dogs—good ones! Then his son came home with the story that business is bad. The father started economizing on the good ingredients in his hot dogs. Sales fell off. He bought cheaper frankfurters, and sales fell off more. He soon closed shop, a victim of scarce psychology.

Coffee county's cotton and peanut crops this year were about 25 per cent off—not a crop failure. There's a steel strike and some automobile plants will soon shut down—temporarily. Even when the strike is settled, the prices of many steel products will be up.

The current issue of the Time Magazine said that already more automobiles have been sold this year than all last year. "Despite the crippling of one of the nation's chief industries," said the First National City Bank of New York in its monthly business letter, "the economy has been strong and vigorous."

The moral: next time you hear anyone say that business is bad just tell him to go eat a GOOD hot dog.

COLORED HIGH  
STUDENT WINS  
PRIZE OF \$50

Ulysses Rowe, member of the Elba Colored High School N. F. A. Chapter, won first place in a state-wide soil and water management program. He is the son of Mr. and Mrs. Bud Rowe, Rt. 5, Elba, Ala.

The soil and water management award is one of many technical awards that is given on a state, sectional and national level by the Future Farmer Degree, along with three other boys from his chapter, at the State Convention this year.

Ulysses is a member of the Ag. III class and says he intends to farm after finishing high school.

RAILROADS ATTACK  
"Featherbed" Rules

A stormy showdown between management and labor over the \$500 million annual featherbedding waste on the nation's railroads is imminent. Readers Digest reports in an article in the November issue of U. S. railroads are determined to moderate the work rules dating from 40 and more years ago, according to the article by Alfred Steinberg. These rules require surplus men on trains, erect jurisdictional barriers between various work groups and otherwise promote waste and inefficiency among 200,000 operating employees, the article points out.

Contract negotiations on this explosive issue will begin after November 15.

NEED FOR 100

The need for 100 houses in Elba was stressed at a round table discussion at a meeting of the Elba Chamber of Commerce Tuesday night with Curd Duke as master of ceremonies.

Housley, committee member of Dorsey Trailers.

Elle Brunson said that if rental property were available, 100 additional families would move to Elba immediately from the production department of Dorsey's, and this was followed by a comment from Mr. Vaughan that expenditures locally exceed the equivalent of a new industry moving into Elba. Brunson said that now more than half the workers in the production department at Dorsey's live out of town.

## "I'm Not Sick Enough To Call A Doctor"

—HOW SICK IS "SICK ENOUGH?"—

The simple truth is that Nature intends man to live in a state of perfect health. Manifestations of ill health, no matter how minor they may seem, deserve your prompt consideration.

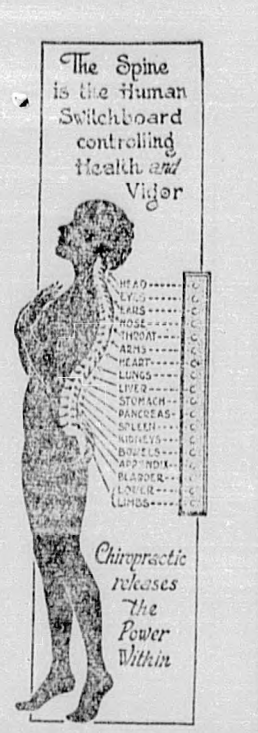

Illness doesn't "just happen." It is a consequence of some reversal of natural law. And it can be remedied only by correcting the condition that causes your distress. The condition that causes your distress is—very briefly and factually—the pressure of vertebrae against a nerve line carrying vital energy to some organ or part of the body. Whenever and wherever this energy fails to flow freely and fully, the condition we call "disease" develops. When the flow is restored, disease disappears. So you see how foolish—and how futile—it is to drag along with a handicap of "half-way" health.

That is why—if you are not as well as you should be—and could be—it is not only your privilege, but your obligation to call a chiropractor.

Like all great basic truths, chiropractic is a simple philosophy. Indeed its very simplicity has led some to distrust it. But those who have faith in the simple, fundamental facts of life are abundantly rewarded with Nature's greatest gift to the human family—the gift of health and happiness.

## Miss Cox Wed To Mr. Farris In Navy Chapel

Miss Betty Jean Cox became the bride of Lt. (jg) John Farris in a ceremony at the Chapel in the Woods, Norfolk Naval Air Station, at 4 o'clock, Saturday afternoon, September 19.

The vows were spoken in a double ring ceremony before Chaplain Sargent.

The bride is the daughter of Mr. and Mrs. Rupert Leslie Cox of Norfolk, Va. The bridegroom is the son of Mrs. Francis Angus Farris of Elba, and the late Mr. Farris.

Mr. Taylor Lewis accompanied by Mrs. Don Kovic, sang "Eternal Father," "Because" and "The Lord's Prayer."

Given in marriage by her father, the bride wore a full length gown of white imported silk peau de soie, decorated with

an off shoulder neckline outlined with re-embroidered points. The princess bodice fell into a billowing skirt with padded lining puffs of re-embroidered Alencon lace. The face flowed gently into a flower design over the wide sweep of the skirt and ended as the chapel train. Her tiered finger-tip veil of silk illusion was attached to a lace Juliet cap. She carried a family prayer book, covered with antique satin and lace, on which were arranged two royal bouquet orchids, showered with stephanotis.

Mrs. Robert Moore Harnly, cousin of the bride, was matron of honor. Bridesmaids were Misses Sandra E. Farris of Elba, Ala., sister of the bridegroom, Jane Ferguson of Montgomery, Ala., Frances W. Wente and Miss Nancy Barnes Smith, both of Norfolk.

The attendants wore floor-length gowns of turquoise silk organza, styled with scoop necklines, tiny sleeves and shirred bodices. The very full bouffant skirts had shirred effect side panels and ended in the back with a bustle effect bow, centered with matching velvet roses. They wore matching bouffant of hair, head covered with wild seed pearls and circular veils of silk illusion. The Matron of Honor carried a cascade of pale pink French lilies, accented with Ruy-Brun Lilies and polished English Ivy. The bridesmaids carried similar cascades of pale pink French lilies, accented with Ruy-Brun Lilies and polished English Ivy. James R. Farris of Mecon, Georgia, brother of the bridegroom, was best man. Groomsmen were Lt. Phil D. Robbins, Lt. Ted G. Robbins, Lt. Gerald A. Sappenfield, Lt. Richard A. Schuchman, All of Squadron VS-35, NAS, the groomsmen were Dress Whites.

Mrs. Cox, mother of the bride, wore a gown of satin accented mauve chiffon and matching accessories. Her corsage was a hybrid pink-lavender orchid.

Following a reception at the Jamestown Room, Commissioned Officers Club, Naval Base, the couple left on a Southern Wedding trip. They will reside in Norfolk, Virginia.

**DOLLARS IN ELBA!**

In business, as in life in general, there are always disadvantages! The wise business man weighs the advantages against the disadvantages and judges the total!

Now is the time for the people of Elba and Coffee county to do just that! Disadvantages primarily are a cotton and peanut crop less than normal on the local scene, and steel strike on the national scene!

Against these are the facts that employment in Elba is at an all-time high, and many businesses already have recorded a business volume ahead of all last year.

Which adds up to the Total that business is good in Elba and in Coffee County!

### Noise And Misuse Affect Dairy Cows

AUBURN—The same gland that is affected by human emotions can affect the milk letdown in dairy cows.

When a cow becomes scared or excited, the level of adrenaline in the blood stream increases, explains API Extension Dairyman John Parrish.

The adrenaline in turn, counteracts a normal substance that causes milk letdown. Therefore, a cow that is mistreated or distracted by noises cannot be expected to properly let down milk.

Parrish points out that anything that interferes with normal milk letdown will reduce the amount of milk given.
